Forecast for Monday 01 Aug 2022

Weather: Monday morning will be dry with sunny intervals and some lengthier sunny periods at times. Clouding over a little during the afternoon with thicker cloud bringing outbreaks of drizzle during the evening. Heavier rain is possible to end the day. Freshening south-westerly winds by the evening.

Chance of cloud-free hill tops above 600m: 90% decreasing to 20% during the evening.

Low cloud and visibility: Little if any low cloud during the morning. Cloud thickening and lowering during the late afternoon however with extensive cloud above around 300-400m spreading in from the west by dusk, with patches down to 100-200m by the evening for western slopes. Generally very good visibilities but locally moderate in rain by dusk, and very poor in cloud.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Early brightness giving the risk of some high UV levels and adequate sun protection is advised. Be aware that light winds will gradually strengthen through the day with some strong winds possible on the highest summits by the evening.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Mon 01 Aug 2022	5.2mm	9.8mm	9.8mm

Forecast for Tuesday 02 Aug 2022

Weather: After a wet night with extensive low cloud, it will remain windy, overcast and often wet throughout much of the day. The rain will become more showery in nature by the afternoon and the odd drier and sunnier period is likely. Feeling warm and humid in shelter from the wind.

Maximum wind: South-westerly 30 mph gusting 40-45 mph.

Chance of cloud-free hill tops 600m: 20% becoming 40% during the afternoon.

Low cloud and visibility: Widespread and extensive cloud above 300-500m. Thinning layers of cloud to the north and east of major summits during the afternoon with cloud bases lifting to 500-700m at times. Widely poor visibility in rain and drizzle with extensively very poor visibility in cloud. Locally good in the north and east during the afternoon.

Temperature: **Valleys:** Plus 13 Celsius rising to plus 24 Celsius.
At 600m: Plus 15 Celsius.
Freezing level: Well above the summits.
